EXPERIENCE

A Tryst With Tigers

Full Day Safaris • Bandhavgarh & Kanha

12 nights • 6 full-day safaris • Taj Mahal

Welcome to India!

A land of ancient cultures and diverse wildlife, India is the premier destination to see and photograph tigers in the wild — along with other iconic Asian species such as leopards, sloth bears, dholes, elephants and over 500 species of birds.

Your journey begins when you arrive into the national capital, New Delhi. From there we leave city life behind and immerse ourselves in the vast, mysterious Indian jungles in search of tigers. We finish back in Delhi, with a guided tour of one of the Seven Wonders of the World — the glorious Taj Mahal.

NATIONAL PARK

Bandhavgarh

Famed for its high density of tigers, and now home to the park's newest residents — herds of Asian elephants — alongside sloth bears, leopards and a plethora of herbivore species.

The terrain ranges from grasslands to rocky outcrops and boulders, an ancient temple statue and rivers. Bandhavgarh offers ample opportunity to watch and photograph tigers as they patrol their territories.

TIGER RESERVE

Kanha

Kanha Tiger Reserve holds populations of Bengal tiger, Indian leopard, dhole, sloth bear, Bengal fox, golden jackal and the incredible barasingha — the hard-ground swamp deer found nowhere else on earth. The reserve also hosts around 300 species of birds.

Kanha is known for its rolling meadows and grasslands, which make for exciting photographic opportunities.

FOUNDER • ATLAS WILD EXPERIENCES

Lala

Apurv Isaac, fondly known as "Lala", is a guide, photographer and wildlife filmmaker based in the lush and wild hills of the Nilgiris, India.

When he's not guiding or filming, Lala can be spotted far off in the distance, setting up one of his many camera traps to photograph India's secretive wildlife. Prior to Covid he toured the world as a musician, and still gets on stage every now and again — he recently opened for Ed Sheeran on his Indian tour.

Lala is deeply passionate about conservation. He believes we are each intricately tied to nature, and through his work he hopes to guide people back to their own connection with the natural world.
